Depending on your benefits, your insurance may not pay for all of your healthcare cost due to pre-existing condition, exclusion of diagnosis, out-of-network, etc. and you will be financially responsible for all non-covered services.
- If your insurance company fails to pay your bill or you have a remaining balance due, you will receive a statement. If a statement is not received, you are also notified from your insurance carrier with an Explanation of Benefits/Payment. If you have not received a statement from us within thirty (30) days of receiving notification from your insurance company, please notify us immediately. It is your responsibility to notify us if you do not receive a statement or if your address changes. If you feel that your insurance company has denied your claim or processed payment in error, you will need to follow up with your insurance company to get this resolved.

Workers Compensation/Motor Vehicle Accident:

If your injury is due to a work or motor vehicle accident, our office needs to be notified immediately. All services provided for motor vehicle injuries will be filed to your health insurance carrier; however, if your carrier does not cover treatment, you will be responsible for payment. We do not accept Letters of Protection nor do we file under motor vehicle insurance. A receipt and detailed statement will be provided to you to turn in to your claims adjuster. All workers compensation injuries will need to be approved by your adjuster prior to being seen; therefore, you must bring us a copy of your "First Report of Injury" signed by your employer. If your injury is not covered by worker's compensation, you will be responsible for payment for services.
